

Reinforced DB End Cap

Innovative new generation of end caps with reinforced ridged construction for an excellent impact resistance. Ideal product for DB applications. High quality materials and transparent body assure easy and quick installation. 100% pressure tight with no bubble allowance.

Technical specification

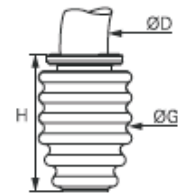

| | |
|--------------------|---|
| Body material: | Polycarbonate |
| Spring material: | Stainless steel |
| Seal material: | NBR |
| Temperature range: | -20°C / +80°C |
| Impact Resistance: | 5J at -25°C, 10J at 23°C |
| Working Pressure: | max. 25 bars |
| Lifespan: | 25 years |
| Standards: | EN 50411, EN 50086-1, ISO 14743, UI94 v-2 |

Product Name

Metal Free microduct connector

Unit of issue: 10 pc
Packaging: Safety clip included
